Where India's Security Leaders Shape the AI Era

AI is Redefining Enterprise Risk

- AI-driven attacks are accelerating
- Boards demand stronger cyber accountability
- AI governance is becoming mandatory
- Security budgets shifting toward AI defense
- Vendor consolidation reshaping ecosystem

Cyber.AI Summit sits at the intersection of AI innovation and enterprise resilience.

Summit Focus Areas

- AI-powered threat evolution
- Securing enterprise AI adoption
- AI governance & compliance
- Emerging AI-enabled attack surfaces
- Enterprise resilience strategy

CxO Sub-Summit

A leadership forum for 40–60 senior enterprise CXOs — AI crisis simulations, peer-led roundtables, and premium plated lunch networking.

🎯 Keynote Presentations

40–60 CxO audience with sponsors seated in clustered round tables (6–8 people per table)

🗣️ Product & Solution Demonstrations

Pre-dinner demo sessions designed to spark ideas and set the stage for deeper discussions

⚡ Zero Distractions

No booths or parallel tracks—complete attention dedicated to keynotes, demos, and meaningful conversations

🍽️ Premium Networking Dinner

High-trust environment

Exclusive plated dinner with informal executive networking — designed for strategic dialogue, not sales.

Invite-Only | Closed-Door | 40–60 CXOs

⚡ AI Executive War Room (Before or After Summit & Exclusive)

Scenario-based crisis

Gamified AI-driven cyber crisis simulation where CXO leaders respond to real-time attack scenarios.

🗣️ Executive Roundtables (Before or After Summit & Exclusive)

15–20 leaders per table

Curated discussions on AI governance, emerging threats, and strategic resilience. Sponsor co-creates the theme.
